- Workshop inspiration and goals
- ACKNOWLEDGEMENTS (brief!)
- Around the room

# DCMI Science and Metadata Community

...**DC-SAM** “is a forum for individuals and organizations to exchange information and knowledge about metadata describing scientific data (data methodologically collected for research, analysis, tracking, forecasting, and other uses). The Community focuses on metadata challenges specific to scientific data curation, and solutions that will benefit from the architecture and global reach of the Dublin Core Metadata Initiative.”

## MEMEBERS

~ 270 • transdisciplinary • range of agencies • **GLOBAL**

- Wiki: <http://purl.org/dc/science>.
- DCMI community page: <http://dublincore.org/groups/sam/>.

“implements...technology,  
practice, and connections”...  
make data work across barriers

**RDA ~ Metadata Standards Directory  
(MASDIR) Working Group** “...supported by  
individuals and organizations involved in the development,  
implementation, and use of metadata for scientific  
data....overriding goal to develop a collaborative, open  
directory of metadata standards applicable to scientific data  
can help address infrastructure challenge” (~25 members)

RDA wiki space: <https://rd-alliance.org/working-groups/metadata-standards-directory-masdir-working-group.html> (and mailing list)

**\* RDA/Metadata Interest Group (MIG)**

# Workshop inspiration & goals

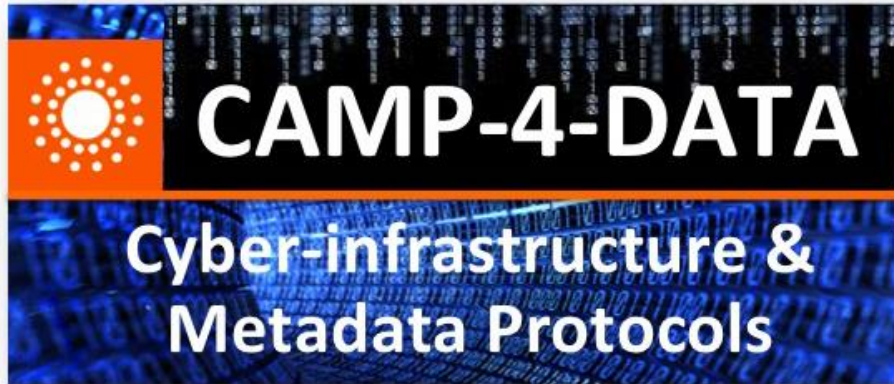

- Evolved (inform MASDIR & RDA-MIG)

“Explore infrastructure design, applications, and policies that can advance the support of open, collective and sustainable access to metadata standards used for managing scientific data.”

- Dialog, share, debate (passionately and productively) about approaches and solutions
- Participate
- Proceeding to-be-published; a record
