

Ute Schwens

The Ultimate Question

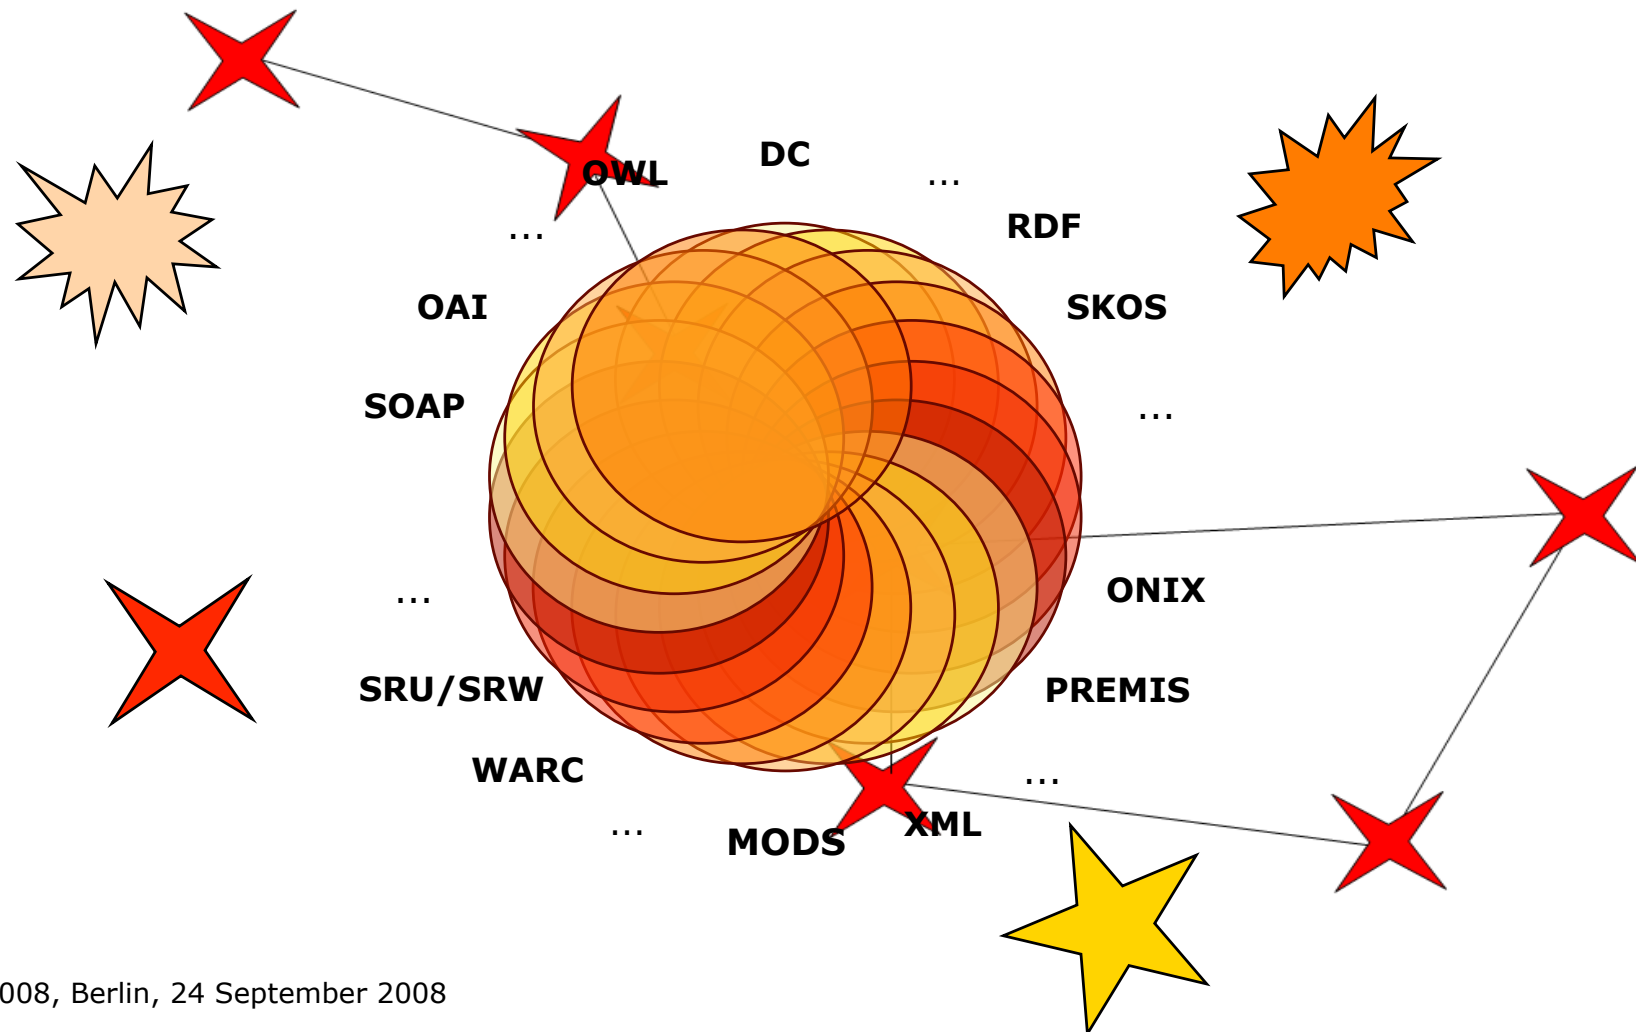

The Answer

Universe of library standards today

Universe of information standards today

... and tomorrow?

Identification, selection and contextualization of objects are more than ever essential for the future of information retrieval - and of indexing

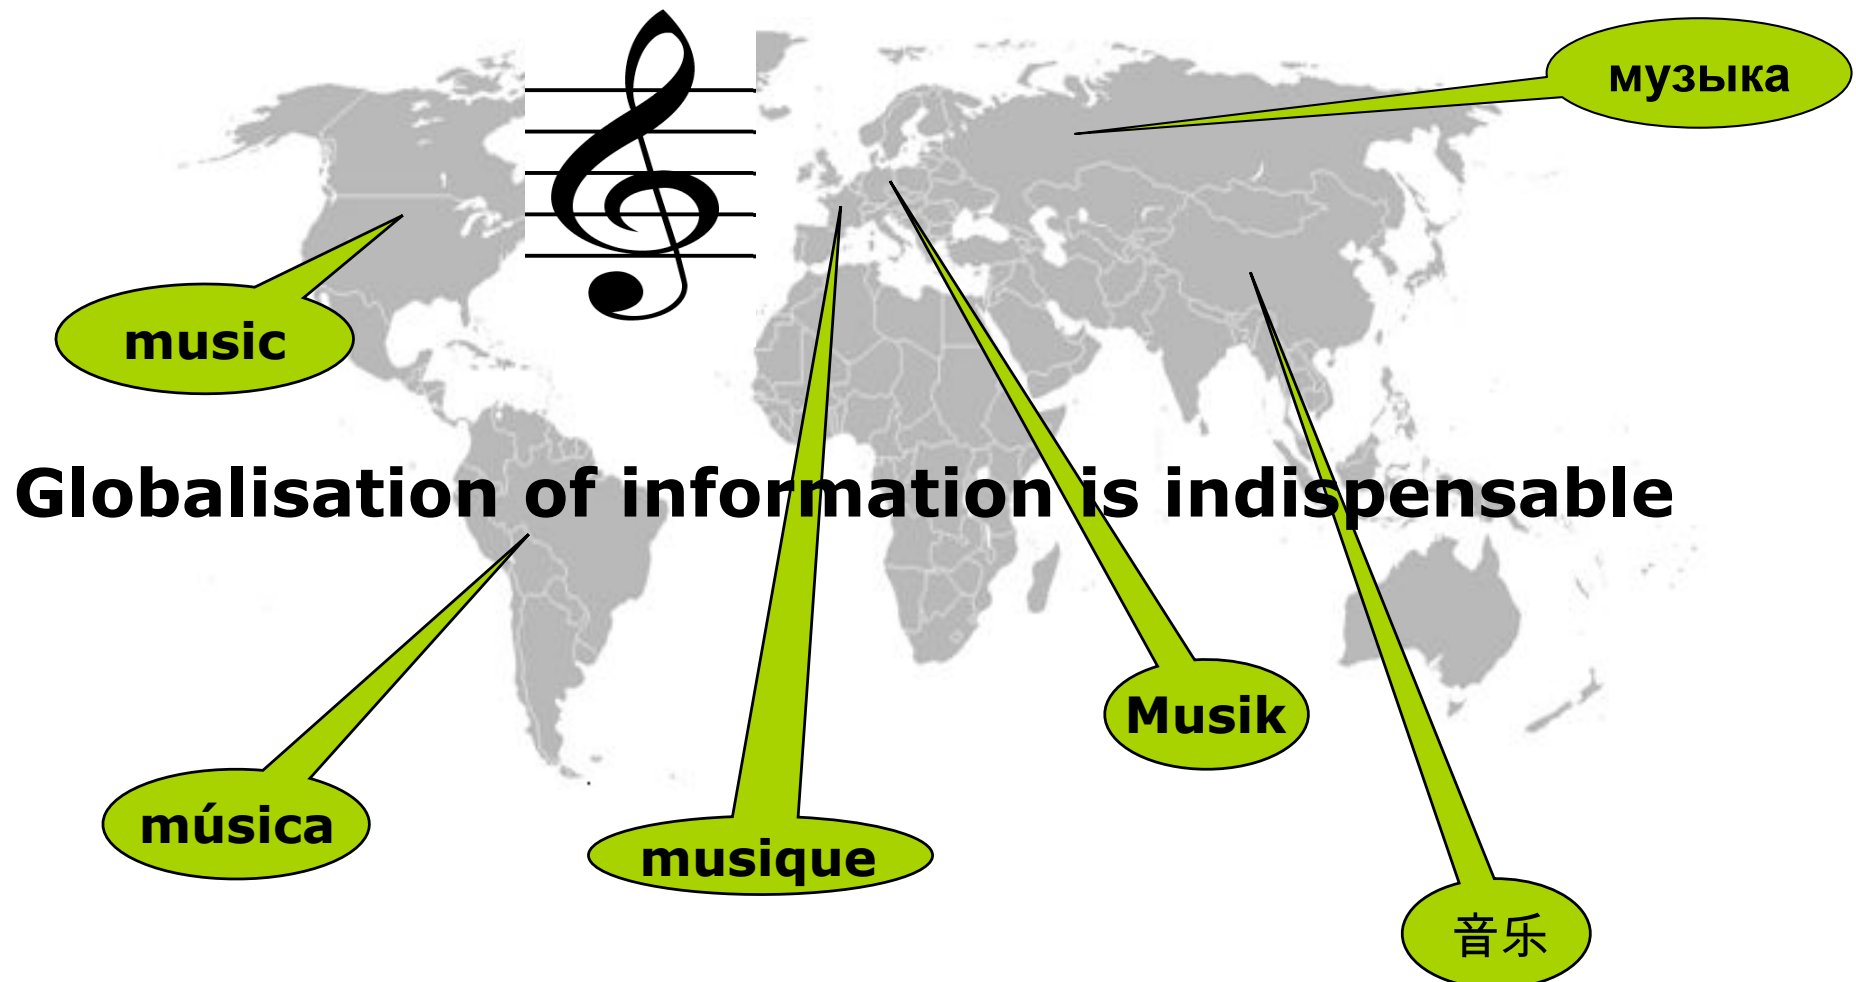

Libraries have to take up their task to set up a world wide web of reliable (bibliographic) information

Weaving a world wide web needs world wide collaboration based on international standards

Need for international standards

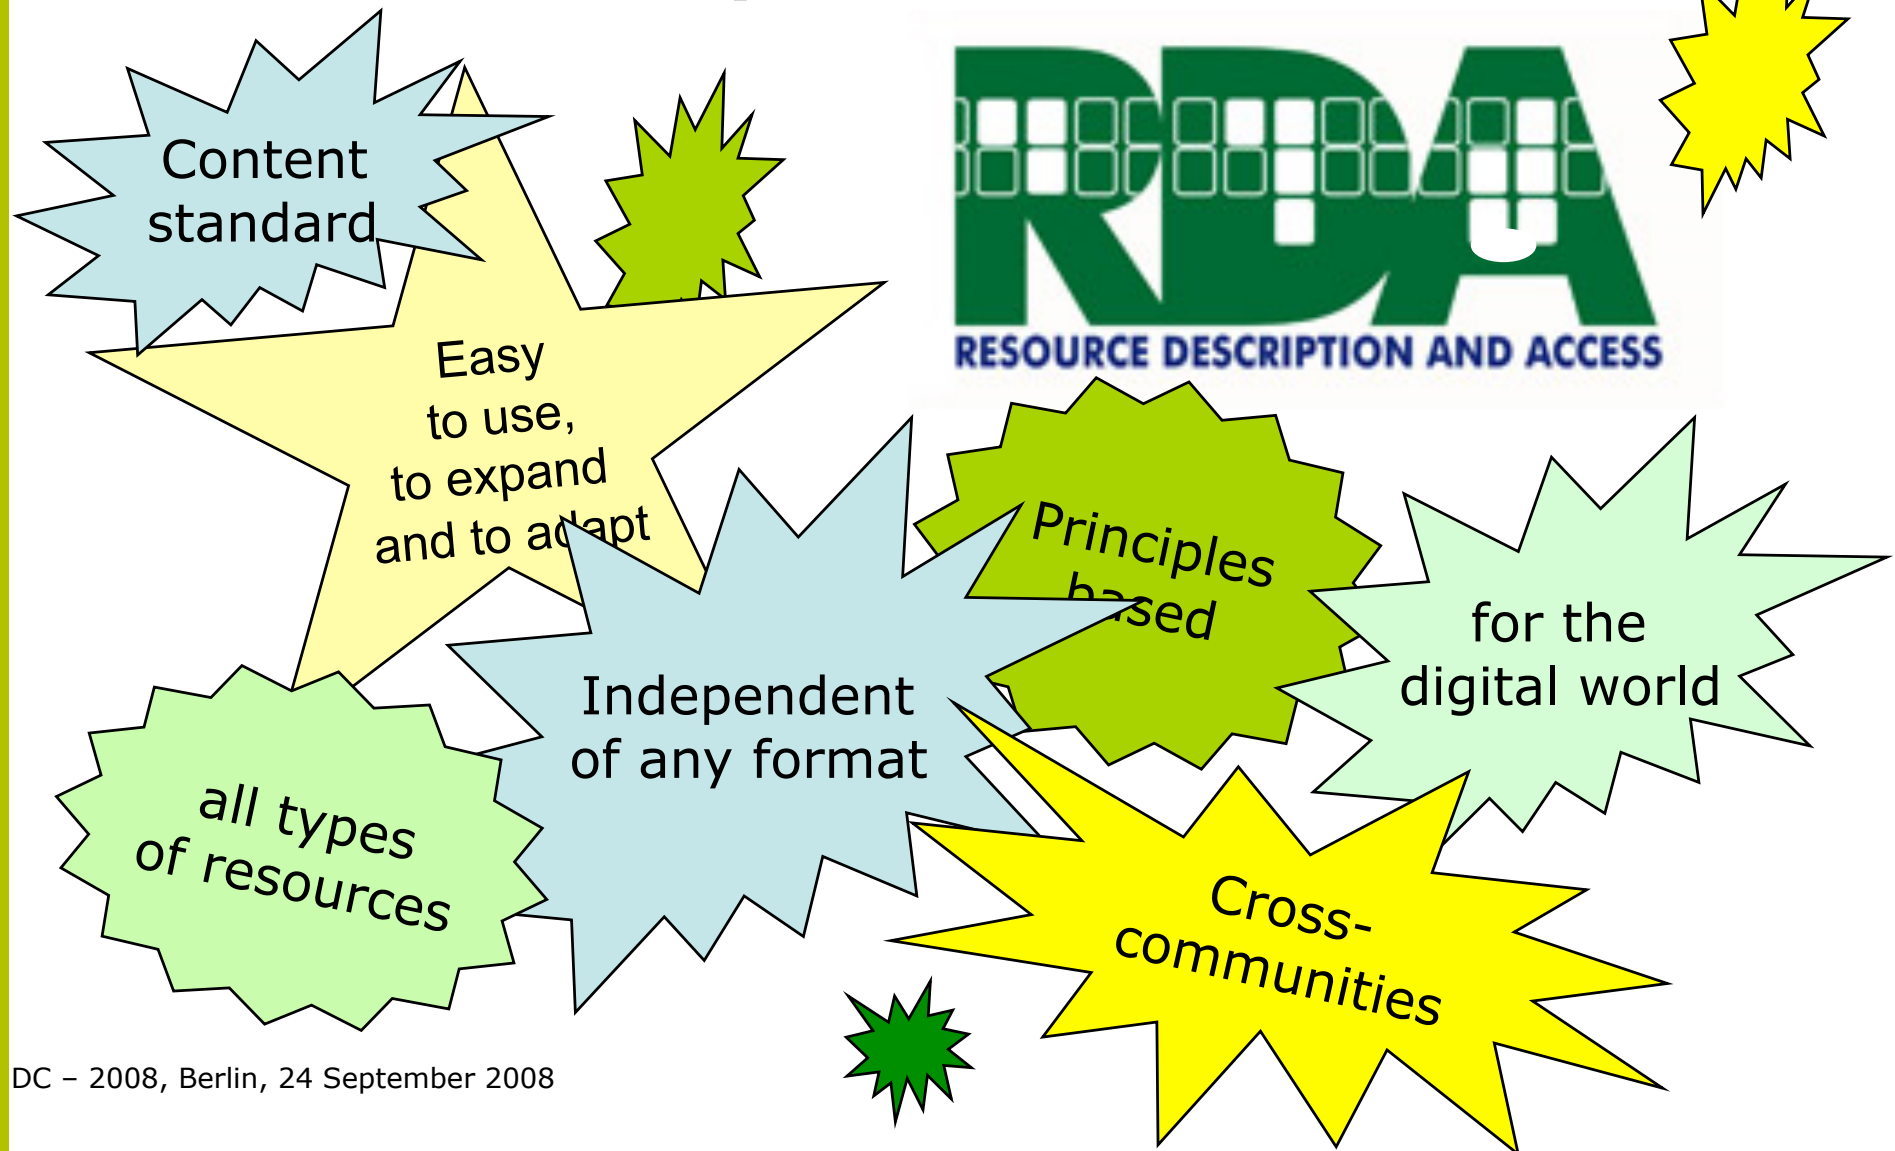

Universe of library and information standards tomorrow

The Question

Resource Description and Access

The more precise answer

Thank you!
